P. O. Box 587 • Reedley, California

No Orders Shipped C.O.D. See parcel post and packing charges. All sales within state, add 4% sales tax.

Each year, in January, we hold a rose pruning demonstration, by experts, to acquaint the rose grower in the proper method of pruning a rose garden.

In the proper season, generally during the month of March, of each year, we have our Azalea Carnival at which time a very complete collection of fine Azaleas, in all their splendor, are offered at very low prices.

Both of these events are well advertised in the Fresno Bee. Watch for them.

Our Roses offer you a selection of both standard and patented sorts in the better varieties. All are No. 1 plants, properly graded and cared for. Write or call for descriptive folder on Roses.

ORNAMENTALS

We stock a complete line of bedding plants, shrubs, shade trees, garden supplies including fertilizers and spray materials. Visit our large greenhouses and see the beautiful orchids with their exotic blooms. To see them is to want them. Open weekdays, 8 a.m. to 5 p.m.; Sundays, 10 a.m. to 5 p.m.

Rootstock Code

Almond	.	.	.	.	.	Al
Apricot	.	.	.	.	.	Ap
Lovell	.	.	.	.	.	L
Rancho Resistant	.	.	.	.	.	R
S-37	.	.	.	.	.	S
USDA FV 234-1	.	.	.	.	.	F
Mariana	.	.	.	.	.	M

Each variety listed will be followed by one or more of these symbols indicating the rootstocks available.

Unless otherwise noted, prices quoted are for trees on Lovell. Add 2½c per tree for Almond; 10c per tree for Rancho Resistant, S-37 and USDA FV 234-1 rootstocks.

Patented Varieties

Introduced by F. W. Anderson, Merced, California

ALMONDS

Minimum sale, 200 trees of each variety.

RUBY, 5/16" up, June Buds.....\$2.00 ea.

EMERALD, 5/16" up, June Buds..... 2.50 ea.

RUBY—L-R. Vigorous, productive tree. It has borne 14 consecutive crops without frost protection. Blooms late, within a day or two after Mission (Texas). Is interfertile with Nonpareil, Mission and EMERALD. Nut is Mission type, but somewhat softer shell. Shell is completely sealed, reducing damage from fungi, birds, insects and moisture. Nut-meat comparable in size to that of Mission. 50 % to 55 % kernel crack-out.

EMERALD—L-Al. Blooms about a week later than Mission (Texas) and about 5 days after RUBY; approximately two weeks later than Nonpareil; three weeks after NePlus and 30 days after Jordanola. Nut is well sealed. About 52 % kernel crack-out. Interfertile with Mission and RUBY. Designed for mechanical harvest.

Late bloom of the above two varieties avoids some of the risks of rain and frost; reduces heating and spraying costs resulting in heavier and more uniform production.

PACKING AND POSTAGE — BARE ROOT TREES

	Zone 1 & 2	Zone 3	Zone 4	Zone 5	Zone 6	Zone 7	Zone 8
1 tree, or up to 5 vines	.85	.88	.92	.98	1.04	1.11	1.17
2 trees.....	.95	1.04	1.08	1.18	1.30	1.43	1.56
3 trees.....	1.05	1.13	1.24	1.39	1.56	1.75	1.93
4 trees.....	1.15	1.24	1.40	1.59	1.83	2.08	2.32
5 trees.....	1.25	1.34	1.56	1.80	2.09	2.40	2.70
6 trees.....	1.35	1.50	1.71	2.03	2.34	2.77	3.08
7 trees.....	1.45	1.67	1.87	2.24	2.60	3.09	3.48
8 trees.....	1.55	1.74	2.03	2.44	2.86	3.40	3.87
9 trees.....	1.65	1.86	2.29	2.65	3.16	3.74	4.26
10 trees.....	1.75	1.99	2.35	2.85	3.38	4.00	4.65

Shipments of more than 10 trees use the 10 rate plus the additional quantity. Example: A shipment of 15 trees (Zone 1 & 2) would be \$1.75 plus \$1.25 or a total of \$3.00.

The above schedule covers only Packing and Postage charges. As an example, if you are located in Zone 5 and make a purchase of 5 trees costing \$5.00, you would add \$1.80 packing and postage charges and remit a total of \$6.80.
